Unused straws remain the property of the seller, but may be used on another mare with the prior written agreement of EARL DES ECURIES DE CHEVANNES. This additional use will be the subject of a new contract for which the breeder will pay the full amount of the service but without the technical and shipment costs.

In the event of a birth not declared after 12/31/2025, declared illegally, or abroad without the seller's agreement, a flat-rate penalty of €2,500.00 per foal born for the owner(s) of the mare declared at the time of purchase of the covering contract will be applied immediately.

The amounts due under the present contract are payable no later than at the signature of the contract. In the absence of a written declaration, the mare will be considered as pregnant. It is up to the breeder to prove before October 1st, 2024, by means of a veterinary certificate, that the mare has remained empty; if this is not the case, the mare will be considered as pregnant and the balance will not be refund. In the event of an empty mare on October 1, 2024, the contract will be renewed on the same mare for the 2025 season at no extra charge. The breeder will must use the remaining straws. In the event of new straws being sent (in the limit of 8), the breeder will be required to pay the shipping costs (rates available on request).

FROZEN SEMEN CONTRACT – Season 2024 CHER EPOUX SF

The breeder may only discharge his payment obligation by producing a veterinary certificate attesting to the mare's vacuity. This certificate must be sent by registered letter before 01/10/2024, otherwise the stud fee cannot be carried over to the 2025 season.

Live foal guarantee: valid only for mares whose vaccinations are up to date (including influenza, tetanus and rhinopneumonitis). If the mare subsequently aborts or if the foal dies within 48 hours of birth: veterinary certificate, copy of vaccinations and declaration of birth must be returned to us, after which the stud fee collected will be deferred in the form of a credit note valid for a CHER EPOUX stud the following year (excluding technical and shipment costs). A live foal is defined here contractually as a newborn foal able to stand and feed without assistance 48 hours after foaling.

Once delivered to the insemination center, the straws are at the breeder's risk.

In the event of sale of his mare, the breeder remains solely responsible for the above clauses vis-à-vis the seller. In the event of fraudulent breach of these conditions, the breeder will be liable to a fixed fine of €2,500.00 as a penalty clause.
